VASCULAR ACCESS PROGRAMME

21st & 22nd October 2017

**Learning Centre, AINU
Hyderabad**

VASCULAR ACCESS PROGRAMME

21st & 22nd October 2017

Dear Colleagues,

With the increasing incidence of CKD-ESRD, there is an ever increasing need for creation of vascular access for these patients. This vascular access serves as a lifeline for the patients. However, a formal training for creation of good vascular access is lacking in most institutes. Vascular access for hemodialysis is an important subspecialty of urology. Successful outcome needs lot of planning, understanding & proper technique in performing these surgeries. Keeping this mind, BOE has planned a 2 days course on vascular access. In this course we shall be having lectures on various aspects of vascular access covering from basics to complex issues. We will be having live surgeries of vascular access creation along with several video demonstrations. Dr. Arun Pherwani, an expert in vascular access from the UK, will be the international faculty apart from renowned national faculty. We have no doubt that this course will be useful to all those who are interested in vascular accesses.

Faculty –

Dr. Arun Pherwani, UK

Dr. Ravindra Sabnis, Nadiad.

Dr. Aneesh Srivastava, SGPGI, Lucknow

Dr. Maneesh Sinha, NU hospitals, Bengaluru

Dr. Ravi Gadahadh, Manipal Hospital, Bengaluru

Dr. Mohammed Taif Bendigeri, AINU, Hyderabad

SCIENTIFIC PROGRAM

Venue – Learning Centre, AINU, Hyderabad

Capacity – 120 delegates

Timings – Day 1 – 10 am to 7:30 pm, followed by dinner
Day 2 – 9 am to 1:30 pm, followed by lunch

TOPICS

- Anatomy related to vascular access surgery.
- Pre op preparations & clinical evaluation in vascular access
- Imaging modalities – special emphasis in Doppler.
- Clinical practice Guidelines for vascular access – NKF KDOQI
- Basic principles in creating AV fistula
- Vascular access – what are nephrologists expectations.
- Why fistulae fail - Understanding the dynamics.
- Brachial AVF – overview.
- Radial & Brachial AVF fails – what next?
- Acute & long term complications of AVF?
- Aneurysm of fistula – management & prevention
- How long can fistula work?
- Brachio-basilic transposition – video
- Forearm transposition
- Grafts in vascular access – when, which & where – An overview
- Vascular access cripple – what is the solution.

HIGHLIGHTS

- **Live surgery transmission :**
ideal method of Radial AVF, Brachial AVF
- **Video :**
brachio basilic transposition, forearm transposition, saphenous vein interposition grafting, PTFE grafting, radiologica interventions

PROGRAM SCHEDULE

DAY 1 – 21st October 2017

Session I

- 10:00 – 12:00 (Basics and evaluation)
- 10:00 – 10:05 Welcome address – Dr Venkatesh Krishnamurthy
- 10:05 – 10:15 Inauguration Ceremony
- 10:15 - 10:30 Vascular Anatomy of upper limb – Dr Mohammed Taif Bendigeri
- 10:30 - 10:45 Pre-op preparations & clinical evaluation in vascular access
– Dr Ravindra Sabnis
- 10:45 - 11:00 Role of USG & Doppler in evaluation – Dr Ravi Gadahadh
- 11:00 - 11:30 Access Services- The surgeon, nephrologist & dialysis access coordinator
– Dr Arun Pherwani
- 11:30 - 11:45 Clinical practice Guidelines for vascular access NKF KDOQI
–Dr Aneesh Srivastava
- 11:45 - 12:15 Primary AVF fistulae - Radial & Brachial AVF – Dr Arun Pherwani
- 12:15 -12:30 Tea Break
- 12:30 – 14:00 Live operative surgeries.

Surgeries planned:

- Radial AVF
- Brachial AVF

- 14:00 – 14:30 Lunch break

Session II

- 14:30 – 16:45 (Approach to failure and difficult scenarios)
- 14:30-15:00 Why fistula fails? Understanding the vascular dynamics – Dr Arun Pherwani
- 15:00-15:15 Sudden stoppage of flow in a functioning fistula; algorithm of evaluation & management – Dr Maneesh Sinha
- 15:15-15:45 Radial & Brachial AVF fails; what next? – Dr Arun Pherwani
- 15:45-16:15 Synthetic Grafts in vascular access; when, which & where
– Dr Aneesh Srivastava
- 16:15 -16:30 Tea Break
- 16:30 – 18:30 Live / Semi-live operative surgeries.

PROGRAM SCHEDULE

Surgeries planned:

- Brachio-basilic transposition.
- Forearm transposition
- Graft interposition

18:30 – 19:30 Open house Q & A

19:30 – Dinner

DAY 2 – 22nd October 2017

Session III

09:00 to 11:00 (Complications and its management)

09:00-09:20 Dialysis nursing & needling technique – Dr Arun Pherwani

09:20-09:40 How long can fistula work? Monitoring & long term consequences
–Dr Maneesh Sinha

09:40-10:00 Acute & long term complications of Radial & Brachial AVF
– Dr Aneesh Srivastava

10:00-10:20 Aneurysm of AVF; causes, types & management – Dr Maneesh Sinha

10:20-10:40 Vascular access cripple- What is the solution? Rare sites of vascular access / Lower limb access – Dr Arun Pherwani

10:40-11:00 Radiological interventions in vascular accesses – Dr Ravi Gadhadh

11:00 to 11:15 Tea Break

11:15 to 12:30 Semi-live demonstrations

- Basilic transposition
- Forearm transposition.
- Saphenous vein interposition
- Radiological interventions

12:30 to 13:30 Case Discussion – Dr Ravindra Sabnis

- What is correct time for fistula creation?
- Post Transplant fistula closure – why & how?
- Dilated tortuous veins with painless thrombus – what to do?
- Can fistula be salvaged in Aneurysm?

13:30 Lunch and dispersal

ACCOMODATION

CATAGORY	HOTEL NAME	ROOM TYPE	SINGLE	DOUBLE
A	TAJ KRISHNA Road No 1, Banjara Hills, Hyderabad 040-66523939 Distance from AINU : 0.6 Km	Superior Room	12000	13500
