

This is the of scientific program for Bhubaneswar conference. Please note - this is only provisional program. It can be changed / modified.

Day 1 – 23th January - Joint sessions with international societies

- 9.00-11.00 Hall A - USI-NAUS -  
Hall B – USI-BAUS
- 11.00-11.30. Tea break
- 11.30-13.30 Hall A – USI-SURS – Convener – Dr. TB Yuvraja  
Hall B – USI-ISSM-SASSM session – Convener – Dr. SS Vasan
- 13.30-14.30 Lunch
- 14.30-17.30 AUA-USI joint session
- 18.00-19.00 Inauguration
- 19.00-20.00 Cultural program – Amazing Odisha
- 20.00 onwards – Presidential Dinner.

Day 2 – 24<sup>th</sup> Jan 2019

- 6.30-8.00 BOE paid course 1
- 8.00-9.00 Hall A, B,C,D,F,G,H – 7 halls Moderated Podium/ poster/video sessions
- 9.00-11.30 Plenary sessions – 20 mins each  
4 orations (AG Phadke, Jaipur, Pinaminani, Himadri Sarkar) & 3 lectures (AUA, BAUS & EAU)
- 11.30-12.00 Tea break
- 12.00-13.00 Sub plenary session – 3/4 parallel halls
- 13.00-14.00 Lunch
- 14.00-17.30 Parallel sessions – 6 halls  
Hall A – IJU session – 2 hrs, Vijaywada prize poster – 1 ½ hrs  
Hall B – Endo-urology lower tract -  
Hall C – Uro-oncology  
Hall D – Transplant – to have 3 podium papers of Tx  
Hall E – Pediatric urology - 3 podium papers  
Hall F – UDM -

Day 3 – 25<sup>th</sup> Jan 2019

- 6.30-8.00 BOE Paid course
- 8.00-9.00 Hall A,B,C,D,E,F,G,H – 7 halls parallel – Moderated podium/poster/video sessions
- 9.00 – 11.30 Plenary session  
CKP Menon prize session  
HS Bhatt symposium – “Contemporary management of Urological infections”  
– Convener – Dr. L.N.Dorairajan
- 11.30-12.00 Tea break
- 12.00-13.00 Sub- plenary session 3/4 halls
- 13.00-14.00 Lunch
- 14.00-17.00 Parallel sessions – 6 halls  
Hall A – prize paper session- chandigarh video, Brij Kishor Patna, SS Bapat innovation  
Hall B – Endourology – Upper tract  
Hall C – Laparoscopy -  
Hall D – Reconstructive Urology  
Hall E – Andrology – Male infertility – to have 6 podium papers  
Hall F – Female urology
- 17.30-onwards – AGM

Day 4 – 26<sup>th</sup> January 2019

- 8.00-9.00 Uro-quiz – Quiz master - Dr Prashant Mulawkar
- 9.00-10.30 Eye opener session:  
45mins - Various laws under which doctors are covered – their implications – Ajaykumar  
45 mins - Real Cases where Urologists – found guilty by MCI – SP Yadav
- 10.30-11.00 Debate 1 Live surgery transmission should be stopped – Yes Vs No
- 11.00-11.15 Tea break
- 11.15-11.30 Progress of making Indian guidelines.
- 11.30-12.00 Debate 2 – Making Indian guidelines – fact or fiction

In favor of fact – Dr. Ganesh Gopalakrishan - Coimbtore  
In favor of fiction – Dr. Shailesh Shah – Ahmedabad

- 12.00-12.30 Debate 3 evidence based medicine Vs experience based medicine
- 12.30-1.00 Debate 4 Is lap surgery skill required to be a good robotic surgeon – Yes Vs No.
- .
- 1.00-1.30 Valedictory function
- 1.30- Lunch & disperse.

Tentative topics for sub-plenary sessions

- 1) Panel discussion on – myths & facts of Sterilization of instruments -
- 2) Scenario based discussion – Obstructed & infected kidney – Dr. Amit Ghose
- 3) Scenario based discussion – Management of Metastatic Ca prostate – Sudhir Rawal.
- 4) Practitioner’s forum – Ganesh Kamath
- 5) Meet the industry -
- 6) ESWL – revisited

Parallel sessions –

---

### **IJU session**

2.00-4.00

Session 1: Chairing a session

- The ‘usual’ scientific session: Anil Mandhani /Santosh Kumar/ Arabind Panda/Apul Goel
- Chairing a session and communication skills: Rajeev Kumar
- Asking the right questions-critical appraisal: Prokar Dasgupta

Session 2: Recent studies and their interpretation

- Surgery outcomes: John Denstedt
- Drug therapies: Nitin Kekre

Session 3: Writing an abstract: Rajeev Kumar

---

### **Upper tract endo-urology**

Session I – 30 mins - State of the art lectures – 3

- 1) Supine PCNL – High time to remove inhibition & resistance of prone PCNL –
- 2) Thulium laser for Stones – What is on horizon?
- 3)

Session II

Dilemmas, controversies & consensus in PCNL - Case based discussion –

Session III

Dilemmas, controversies & consensus in RIRS – Cases based discussion. –

---

### **Laparoscopy**

Trouble shooting in Laparoscopy – Convener – C Mallikarjuna  
12 -14 video based scenarios

---

**Andrology** – total 3 hrs – Conveners – Dr Shivam Priyadarshi, Dr. Vinod KV  
1 hr – Podium presentation  
2 hrs – talks, videos, discussion.

---

### **Pediatric urology –**

3 podium presentations

Session I – 1 hr

Intervene or not to intervene – That is the question  
Case based discussion  
Convener – Dr. Anil Takwani

Session II – 1 hr

I wish I had not done that –  
Convener – Dr. Chandrasingh

Session II – 1 hrs - total – videos

How I do it. – operative technique video.  
Convener – Dr. Mallikarjuna Reddy. –

---

## Transplant –

Session I – 1 hr –

whether I accept him/her as donor...?

Cases based discussion –

Convener – Vikas Jain

Session II – 1 hr

How I bailed out from the situation – cases where complications occurred but were managed successfully – it could be intra-operative problems, post op complications, or long term sequelae

Convener – Anup Gupta

Session III – 1 hr

I repented doing transplant

Cases where complications, sequelae has led to graft failure/mortality

Convener – Ajay Oswal.

---

**Uro-oncology** – Total time – 180 mins – Total 18 lectures. Each lecture – 7 mins, 3 mins for discussion.

### Prostate

- 1) Changing algorithm of diagnosis & staging of Ca prostate in 2018.
- 2) Theme for prostate biopsy – have we got final verdict?
- 3) –ve biopsy what next – practical algorithm.
- 4) Realistic audit of Role of Radical prostatectomy in –
  - a) cT3N0M0 disease with SV +ve
  - b) cT3 with solitary pelvic LN +ve

### Kidney

- 1) When you have hammer- everything looks like nail – Role of NSS in complex renal masses – Shorab Arora.
- 2) Imaging after NSS – what to expect & what not to expect.
- 3) Role of Cytoreductive Nephrectomy in era of TKIs & targeted therapy- what is the evidence & what is the experience

### Bladder

- 1) En bloc resection of bladder tumor – does it exist only in theory?
- 2) Is re TURBT necessary in every case?
- 3) Neo-adjuvant chemotherapy for cT2N0M0 is it becoming standard of care?
- 4) All steps – to avoid complications in Radical cystectomy & diversions
- 5) Robotic radical cystectomy & intracorporeal neobladder – Fad or fact
- 6) Is there a role of conservative treatment in upper tract TCC

## General

- 1) Maintaining Indian cancer registry – what is done in past? how to start fresh?
  - 2) Developments in Radiotherapy – that urologists should know.
  - 3) Should Urologists be giving chemotherapy –
  - 4) Setting up MDT or tumor board – need of the hour.
- 

## UDM

Urodynamic- simplified – Total 180 mins – Convener – Dr. Pawan Vasudeva & Dr. Venkatesh K

15 mins - Urodynamics – Get clarity on basics  
5 mins – Q & A

15 mins – Setting up equipment & running the study  
5 mins – Q & A

30 mins – Interpretation of traces  
5 mins – Q & A

15 mins – Dealing with artefacts  
5 mins – Q & A

10 mins – Utility of video urodynamic  
5 mins – Q & A

10 mins – Reporting of UDM study  
5 mins – Q & A

10 mins – Limitations of invasive UDM  
5 mins Q & A

40 mins – Grand Rounds

---

## Lower tract Endourology – 3 ½ hrs

Session I – 60 mins State of the art lectures & debates

Lectures – Each lecture – 7 mins & 3 mins discussion.

- 1) Visual internal urethrotomy – where are we today NZ
- 2) Do we need to some more research on medical management of BPH?- SZ
- 3) Withdrawal of Alpha blockers for BPH-LUTS – what is the reality. – Amrendra Pathak
- 4) BPH treatment in pts with anticoagulant- SZ

- 5) 50 W laser for prostate treatment – reality or gimmick WZ
- 6) What is on horizon for BPH treatment. – WZ

Session II - Debates – 7 mins each 2 mins rebuttal

- 1) Is enucleation new gold standard for BPH treatment Yes Vs No. Anshuman Kapoor , Subodh Shivde or Jaydeep Date
- 2) Laser enucleation is best Vs bipolar enucleation is the way to go.

Session III - Point of technique video- 5 mins each & 3 mins discussion 40 mins

- 1) TURP – large median lobe
- 2) TURP – large prostate > 100 gms – How to do speedy resection. –
- 3) Resection of prostate lobes extending beyond veru. What precautions.-
- 4) TUIP/BNI

Session IV - How to come out of problems - video –

- 1) Missing of planes & capsular perforation in HOLEP
- 2) Undermining of bladder neck during laser prostatectomy.
- 3) Not getting bladder neck in bipolar enucleation.
- 4) Bleeding starts in HOLEP
- 5) Morcellator injury to bladder –

---

Reconstructive Surgery

Session I – Urethral reconstruction – Convener – Dr. Pankaj Joshi

Session II – Non urethral reconstruction – Dr. Arbind Panda.

---

Female Urology –

Convener – Dr. Ajit Vaze

---
